

Dental and Anesthesia Consent Form

Date _____ Owner's Name _____ Pet's Name _____

Phone number _____ Procedures _____

Is your pet taking any Medications/Herbs/Supplements? Y/N

If Yes, What _____ Strength _____ Frequency _____

Has your pet had any Vomiting/Diarrhea/Coughing/Sneezing in the last 48 hours? Y/N

If Yes, What _____ When start _____ Frequency _____

Thank you for having your pet here promptly! This allows us time for the pre-surgical screen (if chosen), pre-dental physical (if needed), and pain meds (if warranted). We will call you once dentals are completed and give you a pick up time for your pet. **Please read carefully and sign below**

There are factors that limit our ability to detect all dental problems your pet may have. A lack of cooperation from the pet or the tartar's build up can limit our ability to see all the teeth properly and diagnose cavities or fractures. There may also be periodontal problems that can only be detected by probing the gum line with an instrument.

If we do detect any of these issues while your pet is under anesthesia how would you like us to handle them?

Perform any procedures that are necessary.

Call me at the above number to discuss and make decisions. I will be available all day at this number.

If for unforeseen reasons you are unavailable at the time of the call how do you want to proceed?

Perform any procedures that are needed. I will assume all financial responsibility.

Do only what I have authorized. By marking "Do only what I have authorized" I understand that my pet will need to have additional anesthetic procedures with no discounted cost to me.

Signature: _____ Date: _____

Pre-Surgical Screen \$90.00

The pre-surgical screen includes two blood panels. A mini-chemistry which evaluates liver function, renal function, electrolytes, and blood glucose; and a Complete Blood Count which evaluates Red Blood Cells, White Blood Cells, and platelets.
